

## Air Quality Concerns

Please select your five highest air quality concerns from the following list by either: 1) placing an "X" next to the concern and emailing this form to the District; or 2) listing your highest five concerns in an email back to the District. Please send all responses to David Yang at [dyang@airquality.org](mailto:dyang@airquality.org) by this Friday (March 1).

### Stationary Source Emissions

- Campbell Soup (no longer active)
- Wastewater treatment plant
- Stationary sources along Gerber and French Road
- Natural gas turbine (outside the boundary)

### Mobile Source Emissions

- Airport emissions
- Idling trucks/traffic on Mack Road and Stockton Boulevard
- Traffic from the truck stop on Stockton Boulevard
- Traffic on Franklin Boulevard
- Emissions from Highway 99
- Vehicles idling at light rail and train crossings
- Train emissions

### Area Wide Source Emissions

- Emissions in and from small businesses (for example: nail salons and auto body shops)
- Construction dust
- Emissions from gas-powered equipment and blowers used for landscaping
- Fireplaces (residential wood burning)

### Natural Source Emissions

- Wildfires

### Public Outreach/Education

- Need to increase education and outreach efforts, especially to minority populations
- Educate small business on air quality impacts
- Provide air quality awareness at schools
- Complaint database

### Health-related Issues

- Carcinogens and environmental allergens
- Increasing rates of asthma and respiratory problems in the community, and for sensitive at-risk groups (also can be categorized under impact on sensitive receptors)

### Impact on sensitive receptors

- Children walking to school and crossing intersections where these are located at high traffic areas or the highway 99 corridor (also can be categorized under mobile source emissions)
- Effects on the many underserved populations, including young children, need to be better understood
- Impacts on neighborhoods

### Others

- Economic ramifications/negative impacts on the economy
- Indoor air quality/air pollution
- Voltage lines/transformer stations
