Air Quality Sources

Sac Metro Air District Land Use = Lower Impacts from Emissions

Two paths to this:

1. Lower Emissions at the Source
2. Reduce Exposure to Emissions

Lower Emissions at the Source

	Land Use Role	Source	Infrastructure
Fewer Vehicle Trips	Promote walk, bike, roll, & transit		Transit, sharing, pooling, hubs
Shorter Vehicle Trips	Plan land uses closer together		Street design, land use patterns
Cleaner Vehicles	Plan infrastructure	Low emission and alternative fuels, engine technology	EV Chargers, Hydrogen fueling
Building Efficiency	Require efficient technology	Heating, cooling, appliances	
Cleaner Operations	Promote cleaner technology	Low emission equipment	

Reduce Exposure to Emissions

	Land Use Role	Infrastructure
Move Source	Zoning / Land Use designation	Encourage rerouted trips, moved emitters, and separated future emitters
Move People	Design	Sidewalks, bike lanes, on street parking, separate land uses
Block Exposure	Design	Trees, shade, etc
