

PUBLIC NOTICE

Open House Meetings Regarding Rule 421: Mandatory No-Burn Restrictions in Sacramento County

Join the Sacramento Metropolitan Air Quality Management District to learn more about this proposed rule at one of eight public Open House meetings in Sacramento County.

Why YOU should attend...

Residential wood burning is the largest single source of Sacramento's wintertime air quality problems, and can cause serious health problems for everyone. People with heart or lung diseases, children and older adults are most affected, but even healthy adults are at risk.

To learn more about the proposed rule, ask questions or offer feedback, please join us at one of the following Open House meetings.

All comments are due by Friday, August 10. Please submit written comments to the Sacramento Metropolitan Air Quality Management District c/o Katz & Associates, 1722 J Street, Ste. 321, Sacramento, CA 95814 or via email to noburn@airquality.org.

For more information call **916-874-4800** or toll free **800-880-9025**, or visit www.AirQuality.org.
