

CLEAN DIESEL TECHNOLOGY ROUNDUP

HEIDRICK AG HISTORY CENTER—WOODLAND, CA

FRIDAY, APRIL 22, 2011—11:00 AM TO 3:00 PM

2011 brings new clean diesel technology to the on-road and off-road markets.

These new engines use advanced systems to reduce pollution by over 90%. Manufacturers have designed these engines to meet all customers needs while cleaning our air.

The **Sacramento Metropolitan AQMD**, in cooperation with the **Yolo-Solano AQMD** and the **Sacramento Clean Cities Coalition**, will host a workshop to present these new technologies next to the historic tractors and trucks at the **Heidrick Ag History Center** in Woodland, CA.

Registration for this event is **\$5** and includes lunch and museum admission. Manufacturer representatives and government officials will present the technology and how it will improve air quality in the Sacramento region.

Please register early at the following link:
