ON-ROAD & OFF-ROAD FLEET RULES WORKSHOP

- Municipal Utility Fleet Rule
- Construction Equipment Rule (proposed)
- Private Fleet Rule (proposed)

This workshop will focus on the California Air Resources Board (ARB) rules that are planned to reduce emissions from on and off-road fleets throughout California. Erik White will be our featured speaker from ARB. Mr. White will provide us with a road map to understand three fleet regulations and how fleets can comply with them.

Fleet operators will also share their experiences with implementing the ARB fleet rule. The state of the current compliance technologies will be reviewed and vendors will be available to show low-emission technologies that will comply with ARB regulations.

WHERE?

KVIE Channel 6—
Ose Community Room
2595 Capitol Oaks Drive
Sacramento, CA 95833

WHEN?

Thursday
June 21, 2007
