*** THIS EMAIL ORIGINATED OUTSIDE AIRQUALITY.ORG ***

Kevin,

Thanks for the opportunity to review the draft RACT SIP for the 2015 ozone NAAQS. Our preliminary review identified two minor typos. We do not believe these impact the substance of the RACT SIP analysis.

1. Footnote 2: [83 FR 25766](#), June 4, 2018; should be [83 FR 25776](#). There's a typo in the [EPA implementation rule](#) that cited to 83 FR 25766 (migratory birds)
2. pg D-9 Gasoline stations – doesn't impact the document.

CONCLUSION

In the previous RACT SIP, it was determined that Rule 449 satisfies the RACT requirement for this category. Other than the updated BACT determinations, no referenced rules, regulations, or guidance have been changed since the previous RACT SIP; therefore, the conclusion remains the same.

Rule 463 continues to satisfy the RACT requirement for this source category.

We have not conducted an in-dept review of the District's rules and note that additional items could arise when we act on the submitted RACT SIP. We will continue to work with you and your staff on any issues that may arise at that time. Please call me at 415 947 4122 if you have questions.

Subject: Public Review of Proposed RACT SIP

Dear Ms. Lo:

Attached is the proposed RACT SIP for the Sacramento Metropolitan AQMD. We will hold a public hearing for this item at our Board of Directors meeting on Thursday, July 23, 2020 at 9:00 a.m. Although the public comment period continues up to the day of the hearing, please send any comments to me by July 16, if possible, so we have time to consider them and respond before the hearing. Thank you.
